

Feeding the Homeless in Canada

By Mary Youssef

In Canada, the government is feeding the homeless in different places and there are places where they can go to get all types of help including food, clothes, rooms, medical care, etc. In Canada, there are centers called "Sun Youth" or the "Soup Kitchen" etc. where all types of people can go to eat and seek all types of aid. The youth of St-Mary Church in Montreal went few times to feed the homeless.

What we did was very simple at the "Sun Youth", we brought the food and we went to cut and serve to these people and give them a word of encouragement and mention Jesus loves YOU. At the "Soup Kitchen" we go to just serve the food already given by the government service.

While serving, we pass the Love of Jesus to everyone through smiles and words of encouragement. I am sure there are these centers in the US as well.

There are some of the homeless refuse these services and have psychological problems and refuse these services....those who are the most needy for the words of encouragement and the love...they need to find strength to go on.
